Open (Upload) The Figma File 03

Open the link https://www.figma.com/

Click Log in or Sign up
in the right top corner

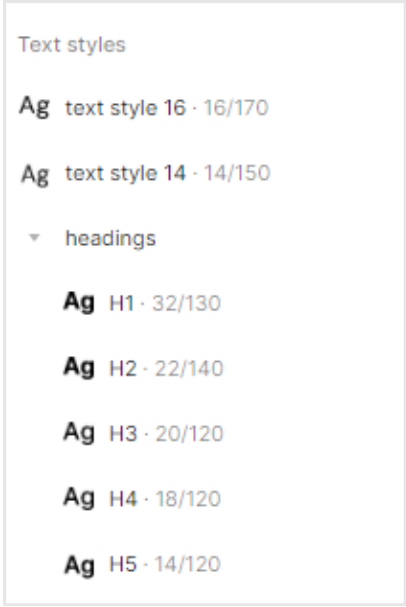

Import the Figma File (Demical - Medical Center App Figma UI Template.fig) here in the right top corner.

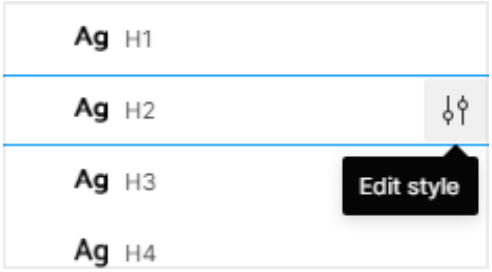

Congratulations,
you've opened (uploaded) your main file!

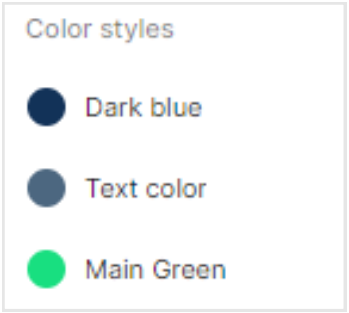

Main Template Styles

At the right sidebar you'll see all the styles that are used in this template.

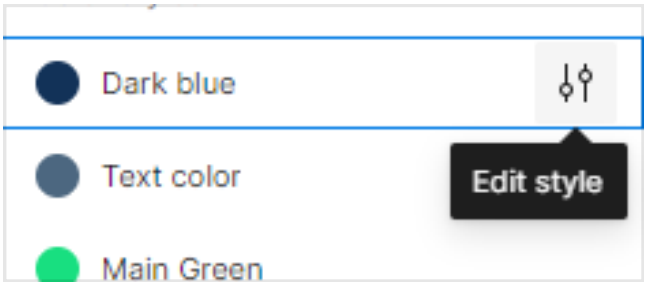

Here are all the Font styles. You can change any of them right HERE and it will change throughout the template. (font-family, font-weight, font-size, line-height, letter-spacing)

Here are all the Color styles. The situation is the same as with Fonts. You can change any of them right HERE and it will change throughout the template.

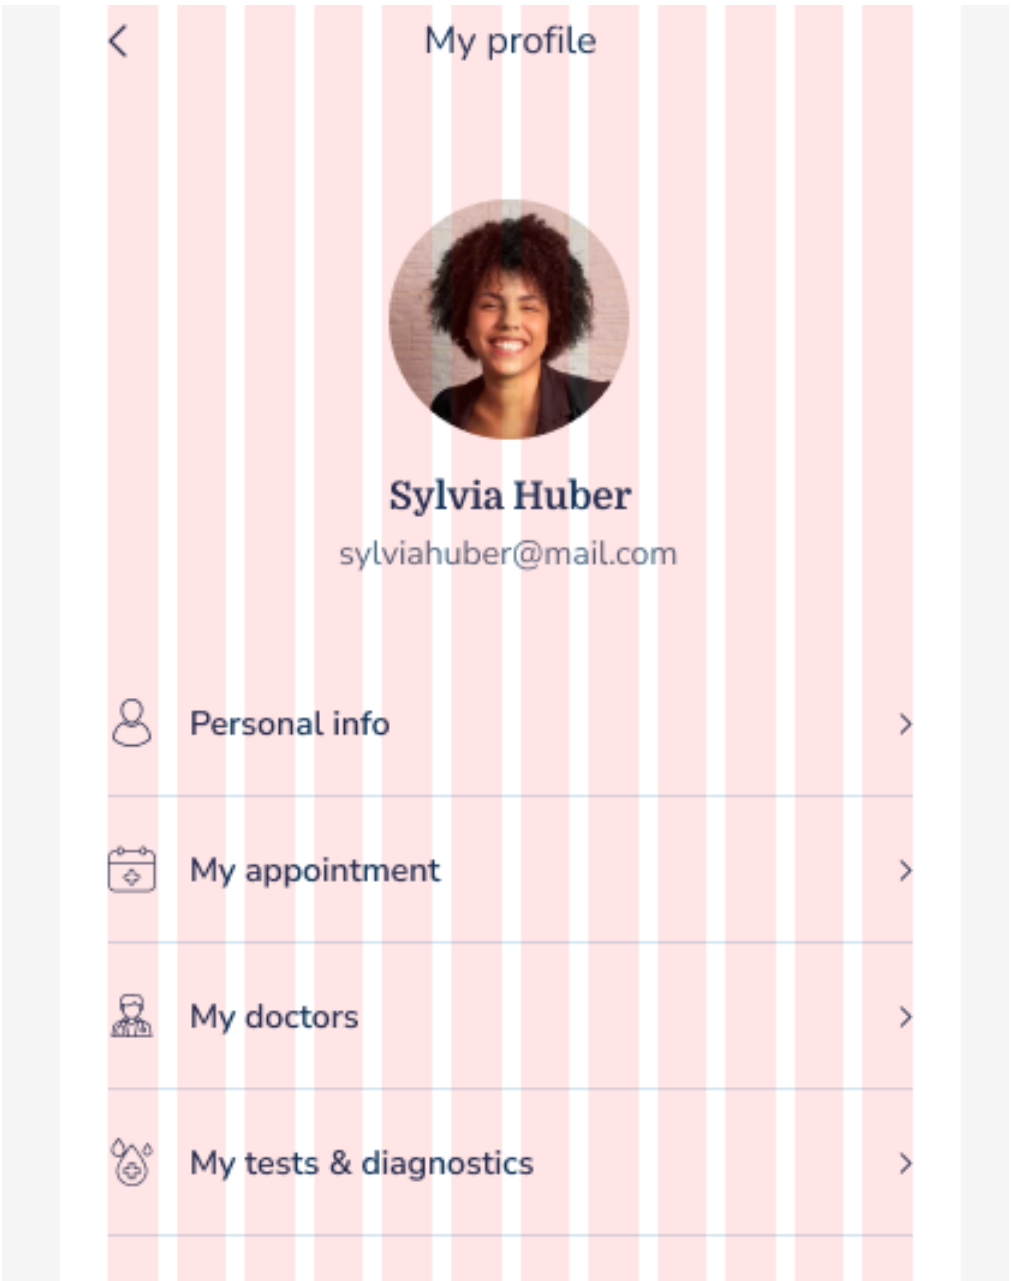

Main Template Styles 05

Also, there is a Grid Style: 12 columns with 8 px gutters.

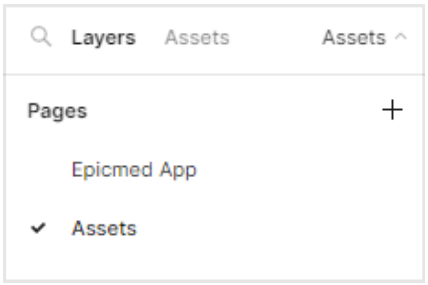

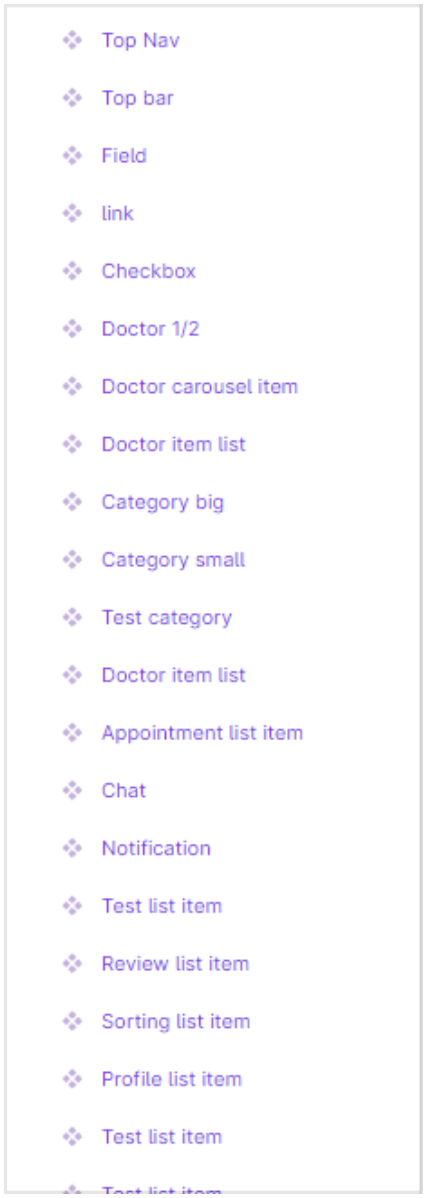

If you need to see it just press Ctrl+Shift+4
and it will become visible. The same HotKeys hide it.

Assets Page

You can see the Assets page in the left top corner.

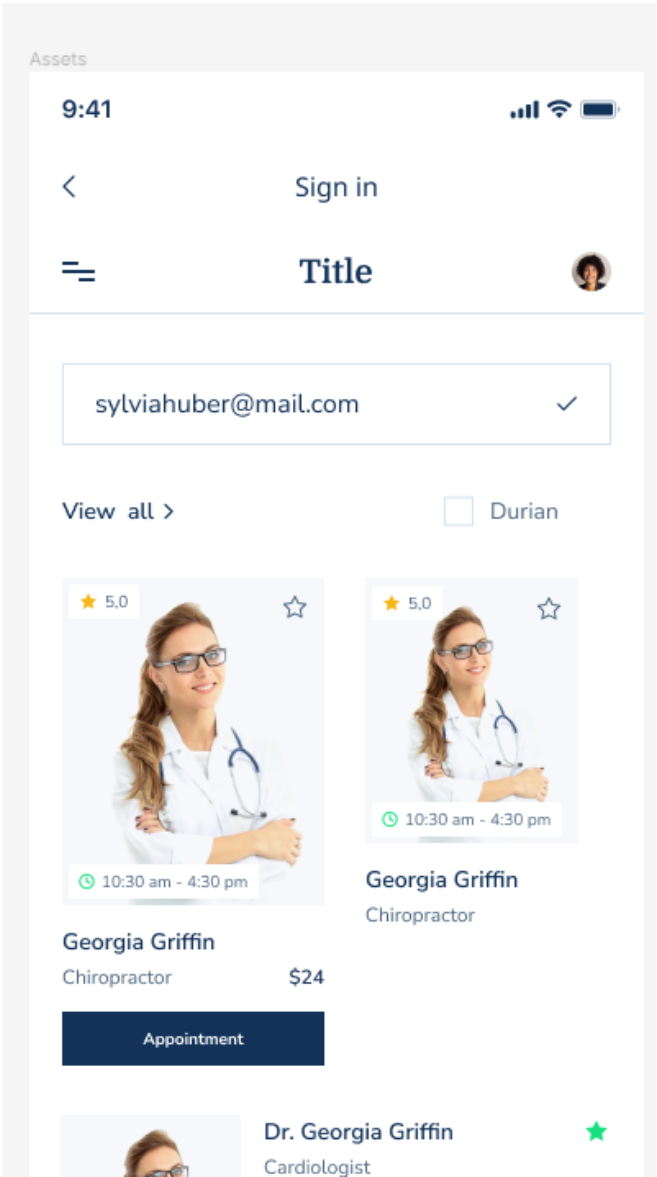

Here you can edit the elements that are used in this Template. When you change any of this, it will be changed everywhere in the Template where it is used.

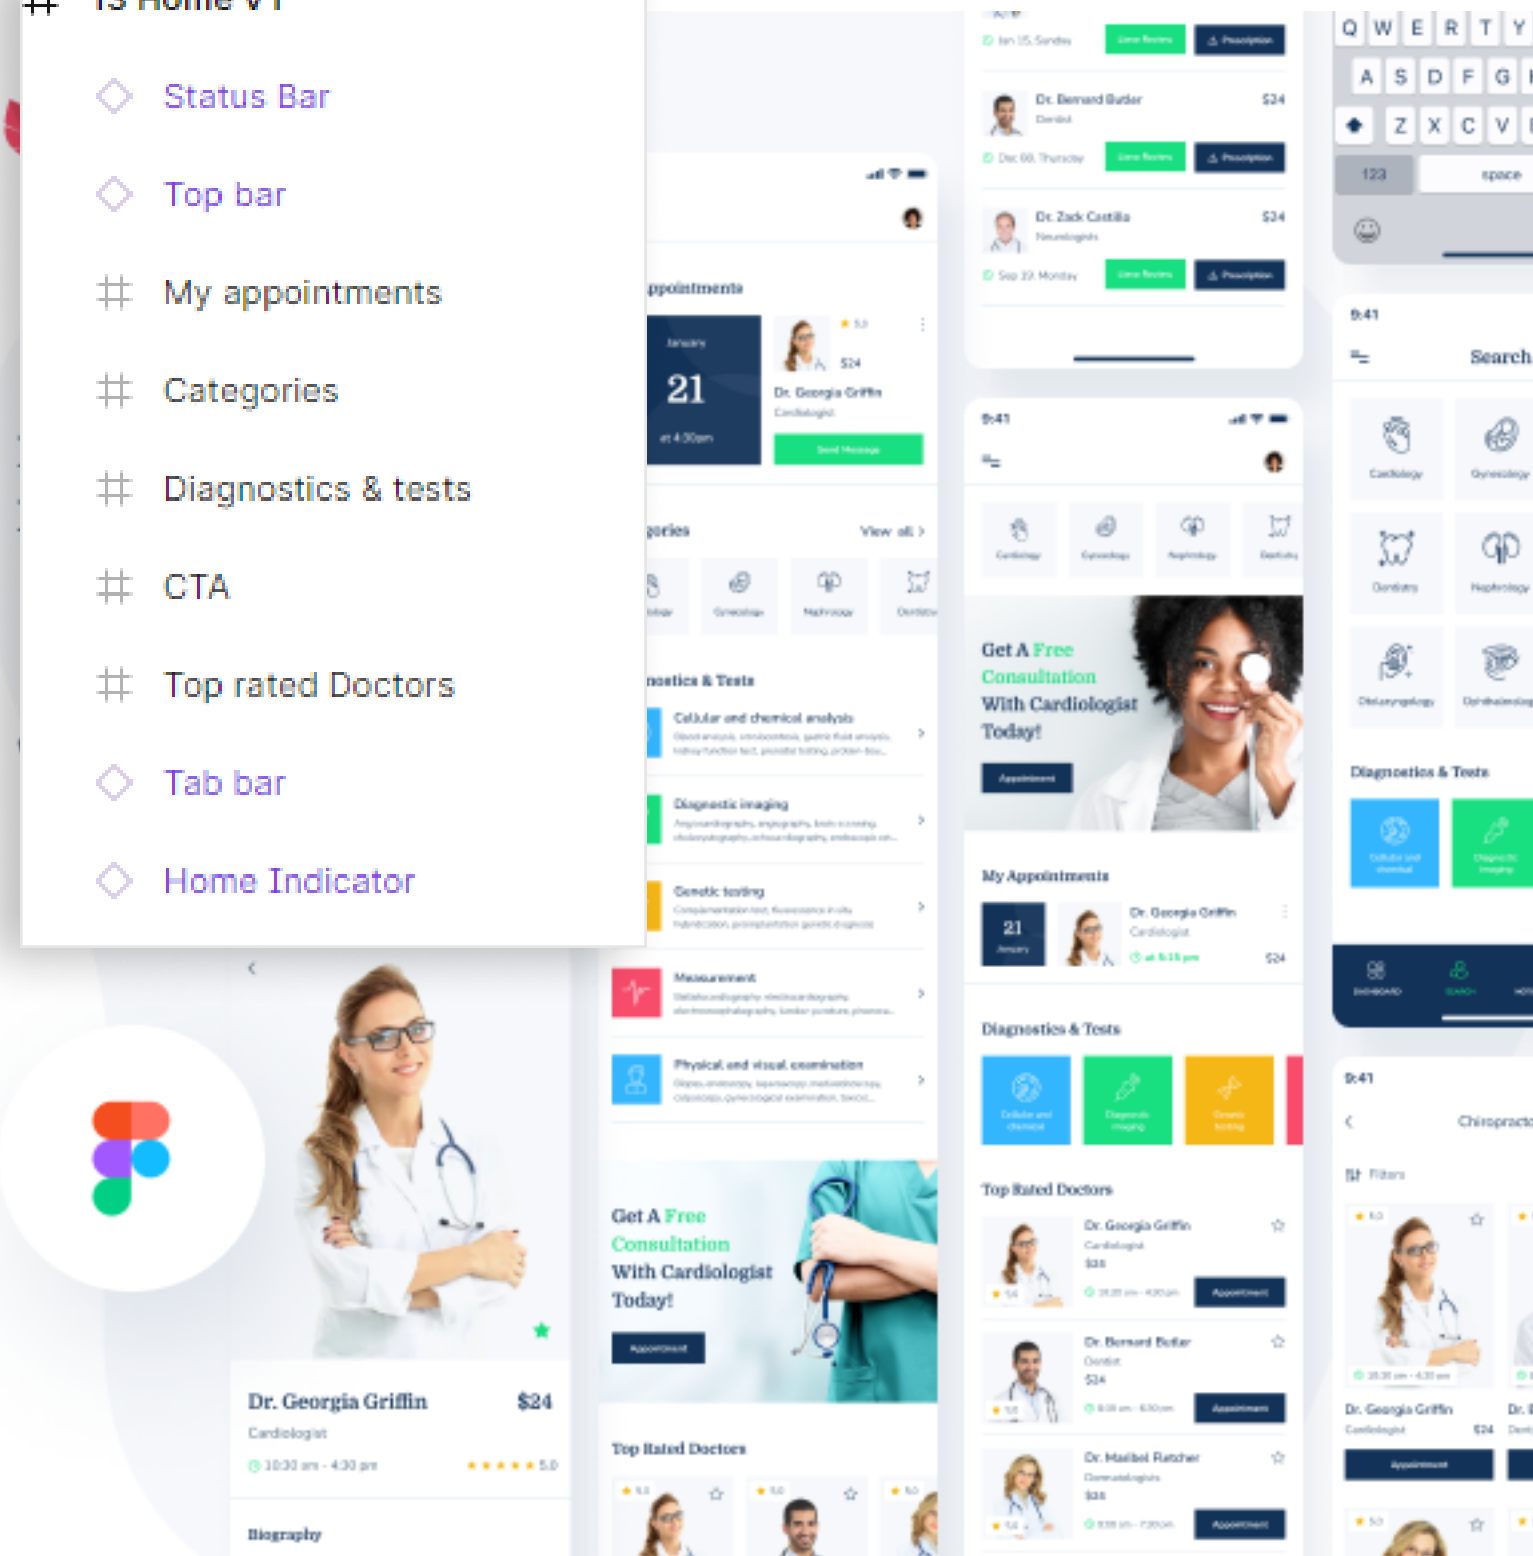

Left sidebar

Page with elements

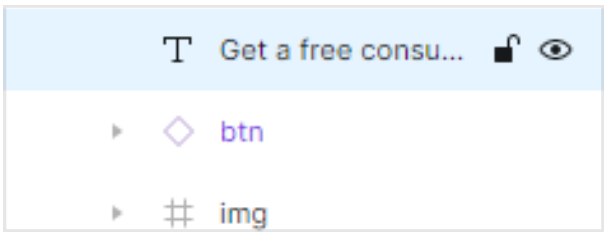

Groups & Layer Structure 07

We’ve organised groups and layers for every Frame included in this template. Below there’s an example of group & layer structure for Homepage. If your layout is distorted, make sure the fonts are installed correctly and restart your system.

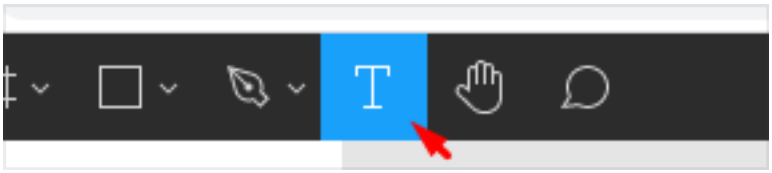

How To Edit The Text

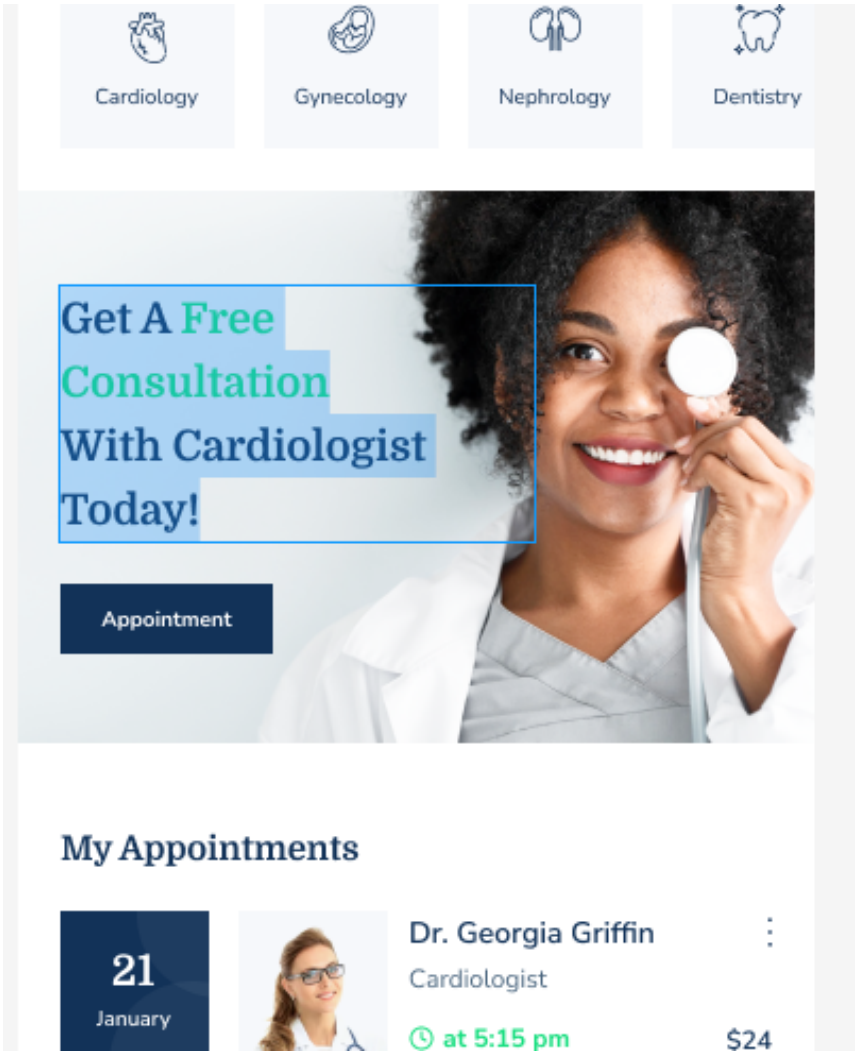

Select the layer from layer panel, which you want to edit or make changes. →

Select the tool from Tools panel - Text or press T key on your keybord.

Start typing your text.
Press Esc . That's all!

How To Paste Your Images

Find the image on your computer
and drag it directly into Figma.

Put it to the necessary Frame

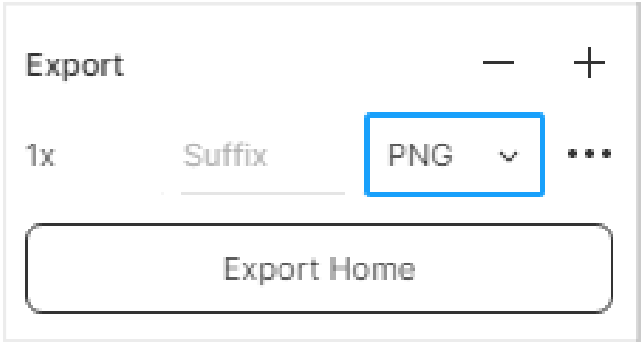

Export

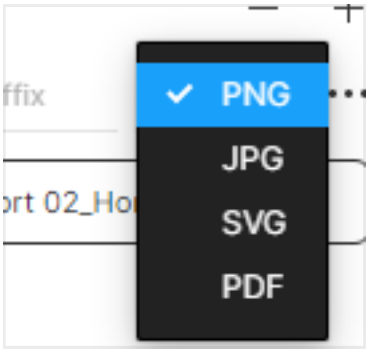

Select a necessary
Frame in the left sidebar

←

You can find the export area in the right sidebar (bottom). →

↓ Select a necessary format.

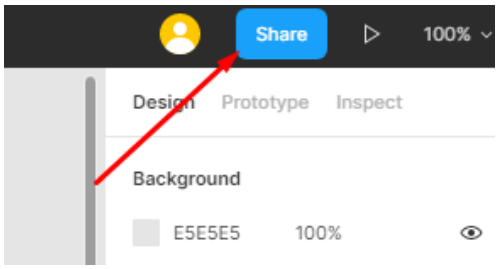

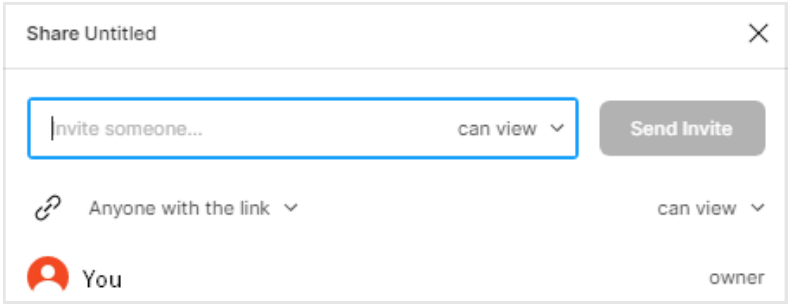

Click the Button ↓

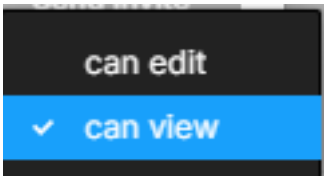

Share

If you need to provide a layout to the developer, then you can simply share this file. Just click the button Share at the top right corner.

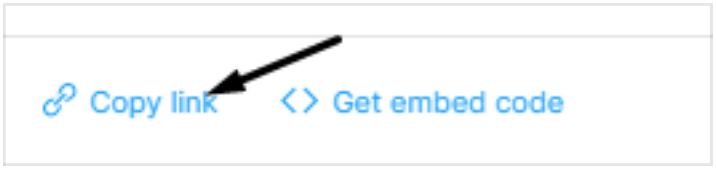

You'll see such a popup.

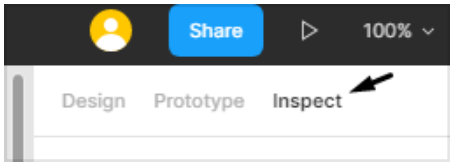

You can let him only view (recommended) or edit this file.

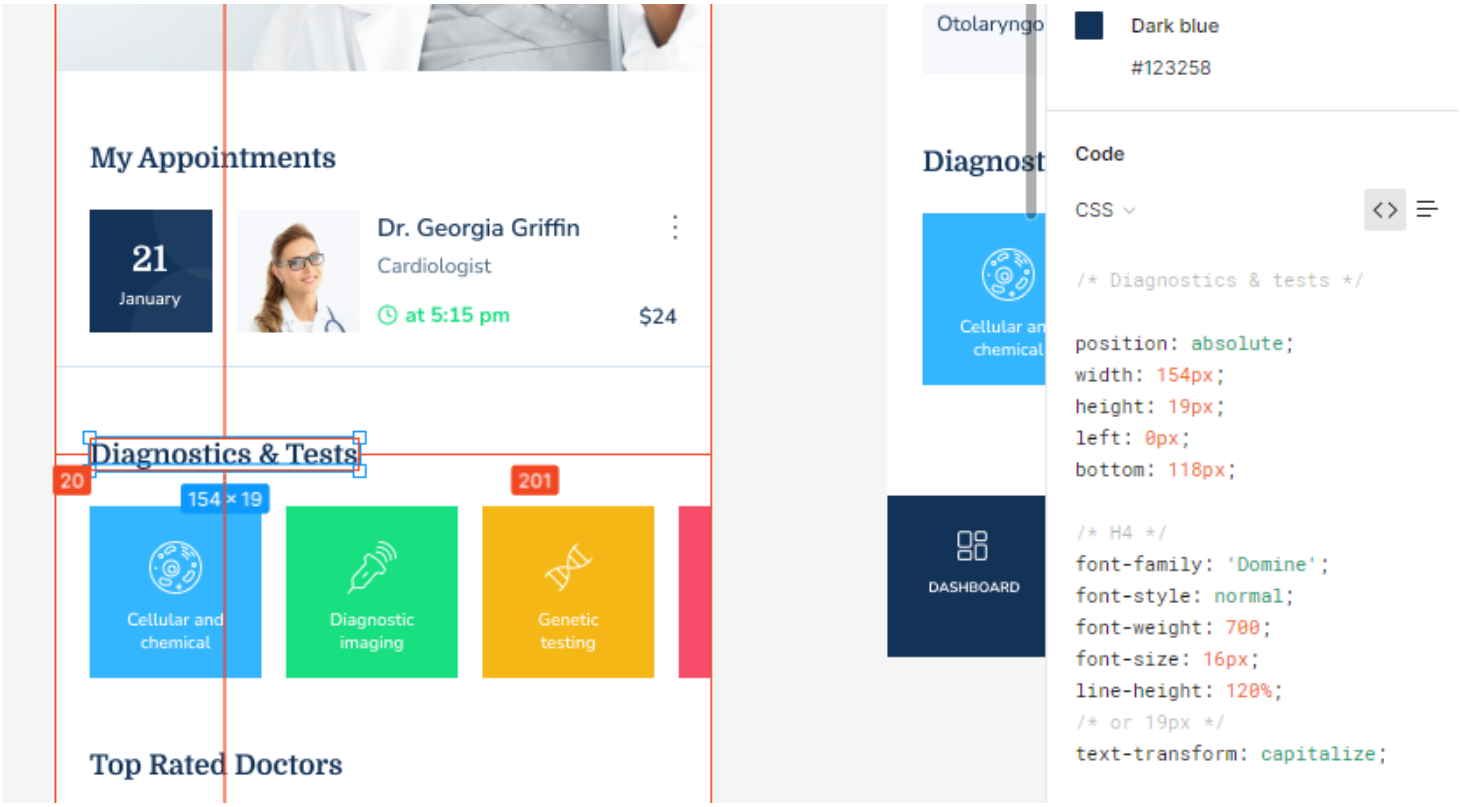

Copy the link and send it to developer

If you need to see all the css properties of an element, select the required element in the left sidebar. In the upper right corner, select tab Inspect.

After that, in the right sidebar you will have all the information you need on the item.

That's it!

Thank You So Much For Purchasing!

Please don’t forget to rate us 5 stars and
write a review to support us to make new awesome
designs.

Enjoy!
